BOWDEN ALTA.

Local Tottings and Provincial Notes

Attention is called to the advertisement in this issue, in reference to the standing field's competition in connection with the Agricultural Society; the many excellent fields of grain in the Bowden District should warrant a large entry.

Canon Hogbin of Calgary will hold Services in the English Church on Sunday, July, 14th as follows:- Morning Prayer with Holy Communion at 11 am. Evening Prayer at 3.30 p.m. followed by a meeting of the congregation. It is to be hoped that a large crowd will be in attendance.

The Innisfail Orangemen held their annual Church Parade last Sunday night. Despite the heavy downpour of rain there was a good attendance of members and the public. Rev. F. E. Davies assisted in the service, and afterwards delivered an address to the brethren in their Lodge Room.

Gordon Keise of Lacombe and Dan Bernard have been visiting John Christie and Bernard this week.

G. W. Jack sold on Saturday last to Mr. Kent the last Premier Separator he had in stock. Mr. Jack cannot keep enough of these separators on hand to supply the demand.

Suits? Suits? Suits? C. H. Payne the general merchant has just received a large consignment of these to choose. Come early and get first choice.

Considerable change is being made at the Creamery. A storage has been built that will hold several carloads of bottles or other useful necessities. A change is also being made at the weigh stand; the drive way is being turned into a porch with office in connection. The interior of the Creamery is being enlarged by a partition being removed.

A Box Social under the Auspices of the Presbyterian Ladies Aid in McCue's hall on Friday evening July 19th. Come and spend a pleasant evening with the folks. No box to exceed in price over one dollar.

Try Christie and Bernard. They have a large variety of paints on hand to supply your wants in that line. This is something you will want.

THE SAMPLE MARKET

How it Will Increase the Car Shortage

From time to time the grain growers of Western Canada are faced with problems affecting the disposal of the products of their labor; questions that require the most careful consideration. To come to a satisfactory conclusion on these vexing problems demands a thorough investigation of all the possible results which would arise from the adoption of the proposals made. To often the actual results of the operation of the proposed schemes are obscured by parties interested in securing pecuniary advantages.

Such a scheme is the one now before the Western grain growers, in which an effort is being made to establish a sample market for the handling of grain. The imaginary benefits of such a market are extolled while the injuries that would result from it are utterly ignored. Chief among the faults that may be found with the proposed scheme is the greater length of time which would be consumed in conveying the grains from the point of shipment to the lake front.

Every farmer knows the value of the rapid transit of grain from the farm to the market. The present cry from one end of the country to the other is that the railways are too slow in moving the crop. There are too few cars and insufficient motive power. And yet the establishment of a sample market would further lengthen the time of transit and lessen the abilities of the railways to handle the crop.

Next fall, one of the railways will be hauling into Winnipeg at least 500 carloads of grain every day. Should a sample market be established the grain would be sold by separate carloads on sample, and ordered out on time. The whole railway yard cannot be switched to pick out a particular car as each order is received, so that there will have to be a rule to start switching cars every night after five o'clock. This means, therefore, that a car of grain reaching Winnipeg after eleven o'clock on Saturday morning would not start to be switched until after five o'clock on Monday evening, as the grain would not be disposed of at the grain exchange before Monday.

Cars that reached Winnipeg before eleven o'clock Saturday morning and were switched Saturday evening would be shipped on Sunday. But on Monday there would be no grain moving out of Winnipeg. That means that practically no grain would be shipped out of Winnipeg for twenty-four hours each week. The same thing would occur on Thanksgiving Day and the other holidays.

Making the very best allowances it means that one day in every seven would be lost, and as there are only seventy-seven days in which the crop moves, which would include eleven Sundays and at least one holiday, it means that the ability of the railways to move the crop would be lessened by twelve days out of seventy-seven, or roughly speaking, the transportation facilities of the railways of the Northwest would be cut down by at least sixteen per cent.

Then, taking into consideration the glut that would take place at the lake front through the rush of grain there in the first part of the week owing to the hold up at Winnipeg over Sunday, it is not an exaggeration to say that the power of the railways to move the crop would be reduced by twenty-five per cent.

The agitators for a sample market are saying that the railways should add to their rolling stock and yard facilities. But every man who exercises common sense knows that notwithstanding their heavy expenditures and every effort they were able to make the railways have been barely able to keep up with the large increases in the crops produced in the West. It is apparent, therefore, that if the railways are hampered in their movement of the crop to the extent of twenty or twenty-five per cent, that the grain blockade will be worse than ever before.

The western farmer is well aware that a grain blockade always works to the detriment of those who raise the grain and to the advantage of those who buy grain and hold it in their elevators. The results of the grain blockade of last fall are still felt in the West. Let the farmers consider the results of a blockade twenty-five per cent worse than the last one before they consent to the establishment of a sample market and its attendant evils.

Pointed and Pointless

Thomas, said mother, severely, someone has taken a big piece of gingerbread out of the pantry.

Oh, Thomas, she exclaimed, I didn't think it was in you.

It ain't all, replied Tommy, part of it's in Elsie.

Save Something

This is a dreadful downpour. Yes, and my umbrella is far too small to shelter your picture hat. Well, try to hold it over that velvet bow, anyhow.—Kansas City Journal.

A Changed Man

Mrs. Knagg—You were a different man when I married you.

Mr. Knagg—I sincerely hope so, for then I was a fool.—Boston Transcript.

Boreleigh—I hope my call has not tired you.

Miss Keen—Oh, no. I inherit a wonderfully strong constitution.

Dr. Morse's Indian Root Pills

are made according to a formula in use nearly a century ago among the Indians, and learned from them by Dr. Morse. Though repeated attempts have been made, by physicians and chemists, it has been found impossible to improve the formula or the pills. Dr. Morse's Indian Root Pills are a household remedy throughout the world for Constipation and all Kidney and Liver troubles. They act promptly and effectively, and

Cleanse the System

His First Move

It was a shy young man who was once asked to take a class of girls about 15 or 16, which had formerly been taken by a woman. The young man consented, says London Tit-Bits, but insisted upon being properly introduced to the class. The superintendent accordingly took him to the class for this purpose and said:

Young ladies, I introduce to you Mr. Chira, who will in future be your teacher. I would like you to tell him what your former teacher did so that he can go on in the same way.

A miss of 16 rose and said: The first thing teacher did was to kiss us all around.

A Snappy Age

The young man breezed into the old man's library.

I met your daughter, he announced, at a Fifth Avenue reception. I want to marry her next Friday afternoon at 3.30. She's willing.

The old man turned to his card index.

Which daughter? he asked.

It's Miss Ethel.

All right, said the old man. Make it 4.30 and I'll attend the wedding. I have an engagement at the other hour.

It was so ordered. This is a snappy age.—Pittsburg Post.

As a vermicide there is no preparation that equals Mother Graves' Worm Exterminator. It has saved the lives of countless children.

Worried

The best Man (making arrangements)—And—er—it is kismet to cuss the bride?—Sketch.

What She Will Sometimes Admit

Does your wife ever admit that she is wrong in an argument?

No, the nearest she ever comes to it is to say that I'm not as big a chump as I look.—Detroit Free Press.

Misunderstood

Alice—I like this style of coiffure. You see my hair has a natural part.

Tom—You don't mean to tell me that some of it is false.

AN EXCELLENT REMEDY FOR LITTLE ONES

Mrs. John C. Lepage, Rimouski, Que., writes: "Your Baby's Own Tablets are an excellent remedy for little ones and I always keep them in the house." Thousands of other mothers say the same thing. The Tablets always do good—they cannot possibly do harm. They are the only medicine for children sold under the absolute guarantee of a government analyst to contain no opiates or harmful drugs. They sweeten the stomach; regulate worms; cure indigestion and promote healthful sleep. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Will Keep it Up

I understand your husband is a candidate for office, said a suffragette out west to her sister in the cause. Are you going to support him?

Oh, I suppose so, answered the sister, somewhat wearily. I've been supporting him for the past ten years.—Chicago Record-Herald.

There was a young lady of Slam Who said to her fond lover, Klam:

I refuse to be kissed,

But if you insist, Heaven knows you are stronger than I am.

INSIST ON GETTING "EDDY'S" Washboards, Wood Pails and Tubs, Fibre Pails and Tubs.

A Handy Thing

A Yorkshire farmer was paid by cheque for some cattle he had sold. It was the first time that it had ever happened.

What's this? he said.

Why, money for the beasts, said the cattle dealer.

The farmer stared and had to be assured that if he took it to the bank they would give him gold for it.

Well, said he, Aw'll try, but if it's a wrong 'un thou'll hear about it.

The cheque was cashed of course, and the farmer went home happy, but he could not sleep. He had seen a wonderful thing and it had excited him. As soon as day broke he made for the cattle dealer's house and woke the dealer.

It's me, he said. Where's tha got them bits of paper from? Aw could do wi' half a dozen myself.

Minard's Liniment Cures Distemper.

Coogan—Don't you think th' baby looks lolkie me?

McSwegan—Yis. What makes him? Is he teethin' he is?—Judge.

We need a man in the packing department. What experience have you had?

I've taken a few lessons in boxing sir.

You're the man.

Cause for Worry

I'm worried about my boy.

What's the matter with him?

When I left home yesterday morning I told him to clean up our lawn, and when I got home last evening I found that he had done it.—Pittsburg Post.

Fisherman's Luck

Up near Flesherston, a Toronto travelling man who was making a trip overland passed an old man who was fishing with hook and line in a small stream. As the drummer drove by in a buggy the old man never took his eyes off the bobber in the water.

When the travelling man returned late in the afternoon he was greatly surprised to see the old man still in the same position, with his eyes glued on the bobber.

Hello, uncle! he shouted. Any luck to-day?

Without taking his gaze off the cork which rested on the surface of the placid stream, the old man replied:

Had a nibble 'long about noon.—Mail and Empire.

May I look at it?
Harry held out his hand. On his little finger was the massive signet ring in question. Engraved upon a bloodstone was the Clavel crest, a mailed arm in the act of hurling a lance, and the motto—
Forward, Clavel!

Denzil Warne looked from the ring to the face of the wearer. Then in harsh, suspicious tones, he inquired—
How did your father get it?

He had it made in New York, Harry replied coolly. He always wore it, and since his death I have always worn it.

Denzil Warne rose and pushed back his chair, muttering something like a curse under his breath.

What is your name? he asked roughly, with a dull menace in his eyes.

I am called Worth here, Harry said, rising also, and facing him with quiet determination. My mother's father was Gerard Worth, and on her marriage she made my father add her name to his. My father left England as a little boy. His original name was Henry Payne Clavel, and he was the second son of Sir John and Lady Clavel of Lyllyngton Court.

Mr. Warne stared at him for a moment too angry to speak.

Then he brought his fist heavily down upon the table, making the cups and glasses rattle and ring.

I might have known it by your cursed dark face! he muttered. I thought there was something wrong about it. How dared you, sir, as a Clavel, show your face within my walls? How dared you address one word to any member of my family? How dared you—

Harry put up his hand.

All this is waste of words, Mr. Warne, he said sternly. I had no wish to know you or to visit your house. You insisted on bringing me here, and in your niece's presence I could not explain my objection against coming. These miserable old stories about the wrongs of the Warnes and the Clavels are new to me, as I have been in England only a week, and have ignored my family history. I cannot personally see why they should affect the present. I thank you for your hospitality, and regret that it was given under a misapprehension. If you will make my excuse to the ladies, I will take my leave.

Denzil Warne stared at him in surly malevolence. The thought that he had a Clavel within arm's length and could do him no personal injury, distressed him.

The sooner you go the better, he said, as I do not wish to forget that you are under my roof. The carriage will take you back to Crayborne. I wish you clearly to understand that no one in this house will have any dealings with you from tonight, and that I shall warn everyone

THIRTY YEARS
OF DISFIGURING
ECZEMA CURED

"Ever since I was a little girl, thirty years ago, I had suffered tortures from eczema in one of its worst forms. The disease runs in my family, and mine was of a scaly and most disfiguring kind. The eczema formed in round rings, and then scales all over my face and limbs. I have been smothered from head to foot. I was born in Leamington, which is famous for its sulphur baths and pump waters, and one would think that after the treatment there regularly as I did, the disease would long ago have been cured, but it was not. I attended the Hospital for years and years, so you will see I gave it a fair trial.

Everyone in the town knew of my case. My face was disfigured very badly. A doctor told me that I should never get rid of it. I spent pounds in doctors' bills, and I attended several hospitals but nothing did any good.

"Then one day an uncle of mine recommended the Cuticura Remedies. I took his advice, and commenced to use the Cuticura Soap. To my astonishment an improvement at once set in, and my hair, which had been a complete mass of scales and scurf, soon began to look a splendid condition. Then I bought a box of Cuticura Ointment, and this cleared my skin wonderfully. In a few weeks' time all traces of the scaly eruptions had completely disappeared. Now my skin is clear and healthy, and thanks to the Cuticura Remedies I am completely cured of eczema. All my neighbours were astounded. The Cuticura Remedies are worth their weight in gold, and one tablet of Cuticura Soap goes further than four cakes of cheaper soap. It has brought happiness into my home." (Signed) Mrs. Butler, 17, Francis Rd., The Cotteridge, King's Norton, Birmingham, Eng., July 26, 1910.

Cuticura Soap and Ointment are sold everywhere, but those who wish to try them without charge may do so by sending to Potter Drug & Chem. Corp., 62 Columbus Ave., Boston, U. S. A., for a liberal sample of each, post-free, with 32-9, skin book.

W. N. U. 905

in Crayborne against you.

Harry bowed coldly.
As you please, he returned. As soon as I have changed my clothes, I would prefer to walk back. Good-night, Mr. Warne.

CHAPTER XXIV
A Cup of Coffee

On the day following his visit to Vale House, Harry found himself at the office of Messrs. Trentham & Ash, solicitors, in Lincoln's Inn Fields.

Mr. Trentham was a portly, elderly man of florid complexion and genial address. His partner, Mr. Ash, was a small, alert person of abrupt manners and suspicious glances. Both agreed in assuring Harry that the papers he had placed in their hands amply proved his identity. But they wanted his mother's address, as it would be necessary to communicate with her, and to take certain evidence of hers on commission.

The estate had been put in chancery they informed him, on account of an idea which prevailed that Henry Payne Clavel, Harry's father, was still alive. As a matter of fact no news of his death, and very little other intelligence about him, had been received since he ran away from school to sea forty years before.

His sister Marion, at the age of seventeen, had accepted an offer of marriage she received when on a visit to some friends in London, and had wedded, against her father's wish, a certain Joseph Symonds, who had subsequently made a large fortune in Liverpool and Melbourne in the wholesale furniture trade.

It was known that her husband had been made mayor of Liverpool, and had been knighted, and it was believed that he and his wife had a large family of sons and daughters. But of recent years they had lived entirely in Australia, and since the "Crayborne Tragedies" nothing had been heard of them.

According to the entail, Lady Symonds would have been able to claim the Clavel property, in default of the appearance of Henry Clavel or his heirs, after the death of her elder brother, Sir Alan, and his son Roger; but Lady Symonds had made no move in that direction, and advertisements and researches after Henry Clavel proved that he had certainly not been drowned, but that he had made a stay in Mexico ten years after the date of his departure from England; after that time, however, all trace of him had been lost.

The difficulty would be to account for his movements during the three or four years which had elapsed between his leaving Mexico and his settling down in New York and marrying Gerard Worth's daughter.

It is no doubt only a question of time, Mr.—or I suppose I ought to say Sir Henry Clavel, Mr. Trentham observed, with his expansive smile. For I presume from what you have said that you intend to use the title?

I see no reason why I should not, if as our history says, we came over with the Conqueror, we certainly did not begin our crimes only seven years ago. It does not seem much use for me to pretend to be anything but a Clavel in Crayborne. Already the sexton has remarked on my likeness to the family, and a mad woman chased me down the churchyard yesterday, throwing stones at me because I was a Clavel.

It is an unusual type of face, Mr. Ash remarked, staring hard at Harry over his eyeglasses. As a young man I was in the office of Messrs. Wentworth & Sons, who managed the Clavel business. I saw Sir John once or twice, and Sir Alan often. There was certainly a strong resemblance between them and you.

Not until half-past three did Harry leave the office. On one point Messrs. Trentham & Ash could set his mind at rest; the administration of the estate was being carried out with comparative honesty, and with a not undue percentage to the lawyers. After many generations of extravagant Clavels, the property was at length having a chance under judicious direction.

Naturally enough, Harry did not mention any of his unusual and romantic experiences to these level-headed men of law. He left everything in their hands, and it was understood that as soon as Harry's mother had been communicated with, and her evidence and that of her father and some other persons taken to explain certain facts about Harry's father, Messrs. Trentham & Ash would communicate with the present representatives of Messrs. Wentworth & Sons and the Court of Chancery, and steps would be taken to prove Harry's claim to the property.

Meantime, he himself could only "lie low and observe," as Mr. Trentham expressed it. There seemed to be in all human probability nothing to prevent Harry from becoming Sir Henry Clavel of Lyllyngton Court before the year was out. He wondered as he walked out of the office and across the square in the direction of Fleet Street, why he did not feel more elated at the prospect.

But in his heart he knew the reason. The title and the estate were but the beginning of his desires. To picture himself as Sir Henry Clavel, reigning in solitary grandeur at Lyllyngton Court, was anything but agreeable; and unless he could induce Lady Anne Daubeney to leave the haunted seclusion of Loders Abbey and share his home and name, he felt that he would rather leave England and go back to his old life in America.

SEVERE NEURALGIA

Cured Through the Use of Dr. Williams' Pink Pills

There is an excellent reason why Dr. Williams' Pink Pills have cured the most severe cases of neuralgia, sciatica and other complaints in the group known as disorders of the nerves. This group also includes St. Vitus Dance, partial paralysis and the common state of extreme nervousness and excitability. Each of these complaints exist because there is something the matter with the nervous system. If the nerves have tone and are strong and healthy you will not have any of these complaints. The reason why Dr. Williams' Pink Pills cure nervous disorders is, that they restore work, run down nerves to their proper state of tone. They act both directly upon the blood supply and the nerves. The highest medical authorities have noted that nervous troubles generally attack people who are bloodless and that the nerves are toned when the blood is renewed. It is thus seen that Dr. Williams' Pink Pills cure nervous disorders by curing the cause of the trouble. The following is an instance. Miss Annie Jones, London, Ont., says:—"For over a year I was an intense sufferer from neuralgia, which located in my face and head. The pain at times was so intense that I could scarcely keep from screaming, and nothing I was doing for the trouble seemed to help me. As time went on my whole nervous system was affected. At last when I felt that my case was almost hopeless I was advised to try Dr. Williams' Pink Pills. The result of this treatment was that I am now enjoying such comfort as I had not known for years, and only those who have suffered from neuralgic pains can realize what a blessing the Pills have been to me."

If you are suffering from any blood or nervous disorder begin to cure yourself to-day with Dr. Williams' Pink Pills, which you can get from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

The Lesser Half

Henpecked Husband—Is my wife going out, Dora?

Dora—Yes, sir.
Henpecked Husband—Do you know if I am going with her?—Satire.

Mrs. Scrapp—Whenever my husband and I get into an argument I send the children out of doors.
Mrs. Rapp—That's right. Fresh air is a good deal better for the children than hot air.

DUBIOUS

About What Her Husband Would Say

A Mich. woman tried Postum because coffee disagreed with her and her husband. Tea is just as harmful as coffee because it contains caffeine—the same drug found in coffee. She writes:

"My husband was sick for three years with catarrh of the bladder, and palpitation of the heart, caused by coffee. Was unable to work at all and in bed part of the time.

I had stomach trouble, was weak and fretful so I could not attend to my housework—both of us using coffee all the time and not realizing it was harmful.

One morning the grocer's wife said she believed coffee was the cause of our trouble and advised Postum. I took it home rather dubious what my husband would say—he was fond of coffee.

"But I took coffee right off the table and we haven't used a cup of it since. You should have seen the change in us, and now my husband never complains of heart palpitation any more. My stomach trouble went away in two weeks after I began Postum. My children love it and it does them good, which can't be said of coffee.

"A lady visited us who was usually half sick. I told her I'd make her a cup of Postum. She said it was tasteless stuff, but she watched me make it, boiling it thoroughly for 15 minutes, and when done she said it was splendid. Long boiling brings out the flavor and food quality." Name given by Canadian Postum Co., Windsor, Ont.

Look in pkgs. for the famous little book, "The Road to Wellville."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

POISON IN SWEETS

Arsenic as Widely Used in India as in Ancient Rome

Arsenic is commonly employed by the professional poisoner in India, who will poison a whole family to make sure of one victim. The reports of the Bombay Government analyst throws some light on the methods. The poison is usually given in sweetmeats, and generally by a strange woman who has been met in the street, and who mysteriously disappears. This strange woman is found in every analyst's report for the last twenty years, and in circumstances so identical that it would almost seem to be the same person. Will this elusive person ever be captured by the Indian police?

Arsenic has, perhaps, been more frequently used than any other poison for criminal purposes. It has been proved identical with the wonder elixir of the seventeenth century, when secret poisoning became so frequent in Italy that the clergy, despite the rules of the confessional, acquainted Pope Alexander VII in 1688 with the extent of the practice.

It was found that young widows were abundant in Rome, and that most of the unhappy marriages were speedily dissolved by the death of the husband. A secret society of young matrons was discovered, which met at the house of La Spara, a reputed witch, who supplied them with a slow, tasteless, colorless poison, carefully calculated to kill a husband in just the time that suited the purchaser. La Spara and thirteen of her companions were hanged, a large number of the culprits were whipped, half-naked, through the streets of Rome, while others of the highest rank escaped with heavy fines and banishment.—London Chronicle.

A Medical Need Supplied.—When a medicine is found that not only acts upon the stomach but is so composed that certain ingredients of it pass unaltered through the stomach to find action in the bowels, then there is available a purgative and a cleanser of great effectiveness. Parmelee's Vegetable Pills are of this character and are the best of all pills. During the years that they have been in use they have established themselves as no other pill has done.

Another Nimrod

Frederick Wilhelm, Crown Prince of Germany, is going to write and publish a book of his hunting experiences in India, Ceylon and Germany.—News.

We know not how the Kaiser. This gruesome news will brook. That Crown Prince Frederick Wilhelm

Is going to write a book. A copying after Roosevelt. At whom the nations look. All hail the Royal Nimrod. Who stands and holds his gun. While toward him, poor wild creatures

Are driven, on the run—
Let calfskin bindings cover
The deeds that he has done! —J.A.

Good Cheer

The vegetable days have come,
With garden sassa complete
Enabling us to laugh a lot
At the awful price of meat.
—Baltimore Sun

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions, and financially able to carry out any obligations made by his firm. Walbridge, Kinnan & Marvin, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price, 50c. per bottle. Sold by all Druggists. Take Hall's Family Pills for Constipation.

A Bad Investment

Uncle—So, my dear little nephew, you haven't forgotten your old uncle on his birthday. You have bought me this nice smoking cap for a present. Thanks, little nephew, here's a dime for you.

Little Nephew—Bye—oo—oo! It cost me thirty cents.

Minard's Liniment Cures Diptheria.

Are you still taking a cold plunge every morning?

No, I stopped doing that to save time.

Why, cold plunge doesn't take more than a minute or two.

I know, but I used to spend three-quarters of an hour curled up in bed hesitating.

The Oil for the Farmer.—A bottle of Dr. Thomas' Electric Oil in the farm house will save many a journey for the doctor. It is not only good for the children when taken with colds and croup, and for the mature who suffer from pain and aches, but there are directions for its use on sick cattle. There should always be a bottle of it in the house.

Pity Poor Psyche

And whom does this statue represent? asked Mrs. Green, who was doing the museum under the guidance of her more sophisticated friend, Mrs. Brown.

That is Psyche, replied Mrs. Brown, executed, I believe in terra cotta. Oh, the poor thing! exclaimed Mrs. Green. How barbarous they are in those South American countries.

Mr. NEWLYWED said—"Hello! Is this a new kind of salt we are using? It shakes all right, doesn't it?"

Mrs. NEWLYWED said—"Yes, it's WINDSOR SALT. The grocer told me about it—said it was the only kind his customers would have."

Mr. NEWLYWED said—"Well, if he keeps such good salt, I guess everything else in his store must be good, so I would do all my trading there, if I were you."

Mrs. NEWLYWED said—"I intend to." 59

REST AND HEALTH TO MOTHER AND CHILD.

Mrs. Winslow's SOOTHING SYRUP has been used for over SIXTY YEARS by MILLIONS of MOTHERS for their CHILDREN WHILE TEething, with PERFECT SUCCESS. IT SOOTHES the CHILD, SOFTENS the GUMS, ALLAYS all PAIN; CURES WIND COLIC, and is the best remedy for DIARRHOEA. It is a purely harmless. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind. Twenty-five cents a bottle.

Botany v. Mercury

The sick and ailing will find a sure restoration to health and vigor in

The Eclectine Botanic Treatment

The weak, nervous and debilitated are made strong and robust by Botanic Treatment. Skin and blood diseases, syphilis, lost vitality, emissions and genito-urinary complaints, chronic and complicated diseases of men and women yield to Botanic Treatment when all other means have failed. Our preparations were given the gold medal as highest award at the International Exhibition in Brussels 1909, London 1910, Paris 1911. Consultation free, personal or by letter. Open 10-3.30.

The Eclectine Botanic Remedy Co.

263-265 Yonge Street, Toronto.

Digging for His Own Money

A young man recently got married and took a cottage, determined to grow enough vegetables to keep the household going. He started to dig up the garden, and, after half an hour's hard work, was astonished to find a sovereign at his feet. Then he dug with renewed ardor. Several pennies, a six pence and a half crown rewarded his efforts.

Blow! If this ain't a bloomin' gold mine! he said digging away for all he was worth. I wonder what I'll find next.

His arms ached, little beads of perspiration trickled down his nose, and his neck felt as though it was breaking. He could stick to it no longer. He straightened his back at last with a groan of pain, and at the same instant felt something cold sliding down his leg. In a moment he grasped the truth. There was a hole in his trousers pocket.

Pathetic

"You can't sit up with my daughter after 11 o'clock."

Would you mind telling her that air? I have been trying to get home early for six months.—Life.

CHEW
DIXIE TOBACCO

IMPERIAL NAVAL DEFENCE WILL BE DISCUSSED IN LONDON

Premier Borden and Cabinet Ministers Sail for England to Attend Conference with Imperial Authorities on Questions Effecting the Empire

Ottawa.—The premier and three of his ministers, Hon. Messrs. Hazen, Doherty and Pelletier have left for England on their imperial mission. They expect to be absent about two months.

Of most importance among the questions to be considered by the Canadian ministers in London is of course the problem of Canada's co-operation in imperial naval defence.

In this connection the premier and his colleagues, it is understood, are starting out with the intention of dealing in the conference with the Imperial authorities only with the broad lines as the fundamental basis of the whole problem so that a carefully matured plan may be evolved later. It is learned on good authority that there is no expectation of evolving any detailed plan this summer either for the creation of a Canadian navy or for direct contribution by Canada of war vessels to the Imperial fleet. The first issue to be settled according to the repeated statements of Premier Borden and Hon. Messrs. Monk, Hazen, Doherty, Pelletier and others of the ministers, both in public and in private is the question of autonomy.

The government is practically committed to demanding as a permanent basis for the Dominion's co-operation in Naval defence, representation on an Imperial council touching the issues of war or peace affecting the welfare of the Empire as a whole.

Premier Borden has explicitly stated his belief in the feasibility and necessity for the Dominions if they are to enter upon a system of naval defence, "having a greater voice in the councils of the Empire than they have had in past years." Hon. Mr. Doherty, who will be with the premier and Hon. Mr. Hazen in direct conference with the admiralty, says: "The condition precedent to our undertaking to participate in the naval defence of the Empire is that we should be given an effective voice in the governing and determining of the foreign relations of the Empire." The same principle has been practically asserted by most of the other ministers. It would, therefore, appear that this larger principle must first be settled before Canada can expect any tangible effort on the part of the government towards the establishment of a Canadian navy or towards direct contribution.

In addition to the naval question there are also to be discussed with the Imperial authorities the final settlement of the proposals for a uniform Imperial naturalization law, Imperial copyright, reduced Atlantic cable rates, lower postage rates with France and faster Atlantic service, as left over by the late government.

OPPOSE CHINESE LOAN

The New Republic is Experiencing Trouble on all Sides

Pekin.—It is apparent that the forthcoming loan negotiations will be lengthy and arduous. The government is confronted on the one side with violent provincial opposition, which opposes any supervision and on the other by the groups of bankers who desire increased control extending considerably beyond what was required in the case of previous advances.

It is believed here that the government's acceptance of the banker's present proposals would surely bring a violent outbreak on the part of the people in opposition to the loan. The unfavorable reception with which the comparatively mild terms of supervision in the case of previous advances were met, indicates the almost universal sentiment against such supervision. The government officials, however, are confident that some arrangement will be reached, as there is need of funds, particularly for the payment of the troops.

Opposition to the loan has created a dangerous situation which the government realizes requires careful handling. In addition the government is contending against a serious growth of sentiment in favor of provincial autonomy, threatening central control, which is considered essential to the preservation of the nation.

FIVE MONTHS TO PREPARE

Will Take Long Time to Complete Government Terminal Elevator

Ottawa.—That it will take at the very least five months to prepare the working plans for the proposed new government terminal elevator was the opinion expressed by a well-known contractor who is in the city. The further conviction of the authority is to the effect that good progress will have been made if the elevator itself is ready for the handling of wheat by the fall of 1913. That it should be ready by next fall, he states, is absolutely out of the question.

The plans for the Grand Trunk Pacific elevator, which has a capacity of only a little over that of the proposed new government structure, being for 3,250,000 bushels, took nearly two years to perfect, while to gain some idea of the extent of such plant, it is stated that the working plant alone for the Port Colborne elevator weighed not less than 47,947 pounds.

Not This Year

Winnipeg.—The Grand Trunk Pacific passenger service to the head of the lakes from Winnipeg will not be established this year. This announcement was made from the office of the general passenger agent of the road. The reason given is that it has been found impossible to have the necessary material for the tracks on hand before the fall.

Count Von Hammerstein Killed

Winnipeg.—It is reported here through a communication of a friend that Count Von Hammerstein was killed in Paraguay, South America, where he was endeavoring to start a revolution. The count was here last summer after having been in the district north of Edmonton some weeks on an oil exploration trip and from which, it is said, he promoted several oil companies.

Autos in B.C.

Vancouver.—There are 3,580 automobiles in British Columbia, of these 2,769 are in Vancouver and 1,005 in Victoria.

FOREST FIRES ALONG N.T.R.

Several Bridges Have Been Burned and Thousands of Ties Destroyed

Fort William.—Reports from Superior Junction state that great damage has been done along the line of the National Transcontinental Railway under construction east of that point by forest fires which assumed serious proportions on Monday and since then have swept the northern country. Several bridges, it is said, have been destroyed and thousands of ties have been burned. The work of construction will be held back for some time by the damage and loss of supplies. The damage to the bridges and the loss in ties alone is estimated at nearly \$100,000. For two days the contractors all along the line have had their men at work fighting the flames, but in spite of their efforts it is said that at least one camp was destroyed. So far no loss of life has been reported. The camps keep well in touch with any parties in the bush and surveyors or prospectors who have been out are stated to be safe.

Several settlers, it is reported, were unable to save their humble homes and buildings.

SCENE IN BRITISH HOUSE

Labor Member Shrieks at Premier Because Female Prisoners Object to Eating

London.—A wild scene was enacted in the house of commons as the result of the forcible feeding of the suffragettes who declared a "hunger strike" in Holloway prison. George Lansbury rushed forward toward the ministerial benches, shouting at Premier Asquith: "You are beneath contempt; you call yourselves gentlemen, yet you forcibly feed and murder women. You ought to be driven to posterity as murderers of innocent women."

Speaker Lowther ordered Lansbury to be taken from the house.

Lansbury shouted: "I refuse to leave while this contemptible thing is being done, while women are being murdered and driven mad."

After a scene of great confusion he was induced by his friends to leave. George Lansbury is a labor M.P., elected for Tower Hamlets, Bow and Bromley, in December, 1910. He is 53 years of age and was a member of the Royal Commission on the Poor Laws.

REACH CALGARY END OF AUGUST

Grand Trunk Pacific Track Laying Gangs are Working Night and Day

Calgary.—With everything satisfactory, gangs of men working night and day on the big 70-ton steam shovel, which is eating its way towards Calgary by the light of the sun in the daytime and the huge glare of two big searchlights at night, the Grand Trunk Pacific will be inside the city limits by the end of August and the steel will be lapped by the waters of the Bow less than thirty days later.

Francois Adam, Grand Trunk Pacific right-of-way commissioner, says: "The men at work on the last two miles of the grading that will bring the grade right to the water's edge are straining nerve and sinew to be here on time. The gangs are made up of the oldest and most experienced railroad builders in the employ of the Grand Trunk Pacific, and behind them, straining hard to overtake the men on the grade, is the crack steel laying gang of the big road."

C.N.R. ACROSS CONTINENT

All Necessary Financing Done, Says Sir William MacKenzie

Montreal.—"All the financing has been done for the completion of the Canadian Northern Railway from Montreal to the Pacific Ocean."

The proceeds of \$35,000,000 guaranteed by the Canadian Government to build the section from Montreal to Port Arthur are in the bank and seven thousand men are at work hurrying forward the stretch to completion. A splendid hotel will be built in the city of Montreal, on a site which the company considers the best in the city.

These are some of the announcements made recently by Sir William MacKenzie, president of the Canadian Northern Railway, prior to leaving on the Royal George for England.

Bachelors, Not by Choice

Montreal.—In answer to a letter to Mayor Lavallee urging that bachelors be taxed, C. E. Vickeray, Victoria, B. C., has written in reply to Mrs. Coleman, the author of the suggestion, saying:

"In answer to your question should bachelors be taxed, I would like to say that before bachelors in Victoria should be taxed, enough girls should be sent out here to give all us bachelors a chance to get married. There are about ten times as many men here as there are girls, but it seems like fifty times as many. It would not be right to tax bachelors for what they cannot help. It may be alright to tax bachelors in Montreal, but certainly not in Victoria."

Better Treatment for Insane

Toronto.—Toronto will spend \$100,000 on the erection of a psychiatric hospital, which will be maintained by the provincial government. In addition to treating mental diseases the institution will house weak-minded and insane persons pending their admission to asylums instead of allowing them to remain in jail.

AN ARTISTIC TREAT

Two Splendid Attractions for the Winnipeg Exhibition

Henrietta Crosman and her great success, "The Real Thing" that has been running at the Maxine Elliott Theatre in New York since the middle of last summer, will be seen at the Walker Theatre for three nights starting Monday, July 8.

"The Real Thing" will need no introduction to local theatregoers. Its reputation has already preceded it. No doubt many from this city have seen the production in New York and have reported to their friends what a popular play it is.

Miss Crosman is coming with her New York cast and production and the cast will include those two wonderful children now with the play, Mae Macomber and Allie Morrison.

With the coming of the Fair time Manager Walker will bring the comic opera production that is considered to be the most fascinating of the American theatrical year, "The Spring Maid."

This merry work of Viennese melody and gay romance has proven so charming that it has successfully accomplished the remarkable feat of playing twice over the length and breadth of America in a single season in response to the demand for a second hearing. Werba and Luescher, who present this opera have done much in making this possible in practically holding intact the organization of singers and players that has been so greatly praised and in again presenting Fraulein Mizzi Hajos, the little Hungarian prima donna of charm, at the head of the company. They have also done the unprecedented thing in giving a big organization a new costume and scenic dressing in the middle of a season, and the costumes to be seen at the Walker Theatre upon the return of "The Spring Maid" are gorgeous reproductions of the famous dresses worn in the brilliant London production of the opera.

There have been changes and additions to the great singing chorus that it may live up to its reputation as the most remarkable of modern choruses, but the important change is that Charles McNaughton has been brought from England to play the role of the quaint comedian and bring forth the rollicking humor of the part as he did across the seas.

George Leon Moore as the dashing Prince Aladar; Dorothy Maynard, the mischievous Annamiri, Jack Rafael, Tillie Salinger, Ralph Newman, Louis Miller, Dorothy La Mar, and others of the long cast, will come again in their former merry parts to please as before.

Getting at the Facts

Calgary, Alta.—The Panama Canal conference, the centre of interest at Calgary this week, is leading to the tabulation of much important information bearing upon the present opportunity of the West, and especially of Alberta. The Canal will mean to this province in freight rates for grain at least 9 cents per bushel, to say nothing of an all-year-round seaport. In the meanwhile it will be open to the wheat growers of Central and Eastern Saskatchewan to ship their product east or west as they prefer.

With reference to the present situation a well-known real estate man says: "As might be expected in view of the approaching completion of a great achievement, the wall of the pessimist is heard in the land, mingled with the voices of those who know the facts and who accordingly are inclined to take a somewhat hopeful view of the situation. Such views I am content to pass along for what they are worth. Among those familiar with the facts as to the resources and transportation requirements of the Canadian West, this half-brewed rhetoric and prattle as to impending disasters from improved transportation facilities will be taken at its face value. The conclusions of the Calgary conference will be worth attending to; and the combined wisdom and judgment of the conferees will bring out a number of important aspects of the Panama situation that up to this moment we have been overlooking altogether."

NORTHWEST ENCHANTING

Dr. Berube, of New Hampshire Town Will Sell Out and Move West

East Canada, N.H.—Dr. P. Berube returned from an extended trip in the Canadian Northwest, visiting Manitoba, Alberta and Saskatchewan. He described the country.

He says: "There can be nothing better and it is an ideal country for young people to make a home. Dr. Berube intends to dispose of his property here and remove to one of the large cities of the Northwest. He will engage in an extensive business."

To Study Apes

Berlin.—Fraud Selenka, professor of Natural History at Munich, who a few years ago successfully took charge of a research expedition in Java, has now been chosen to go to Tenerife on a similar mission. This expedition, which has for its chief object the observation of anthropoid apes, is under the direction of Professor Rothmann, of Berlin.

Port Mann Incorporation

Vancouver.—Port Mann, the terminus of the Canadian Northern, is applying to the government for a charter of incorporation. The townsite consists of twenty-two hundred acres.

THE SUNDAY SCHOOL

LESSON I.—THIRD QUARTER, FOR JULY 7, 1912

Text of the Lesson, Mark iii, 20-35. Memory verses, 28, 29—Golden Text, John iii, 19.—Commentary Prepared by Rev. D. M. Stearns.

The lesson is found in Matt. xii as well as in Mark iii and is a sample of their treatment of Him whom they should have welcomed as their Messiah, but of whom it is written: "He was in the world, and the world knew Him not. He came unto His own, and His own received Him not" (John i, 10, 11).

In our lesson, verses 21, 22, it is written that they said: "He is beside Himself. He hath Beelzebub and by the prince of the devils casteth He out devils." They frequently told Him that He had a devil (John vii, 20; viii, 52; x, 20), and as early in the record as Matt. xii, 14, it is written that "the Pharisees went out and held a council against Him." It was the old story of Ps. lxxxi, 11, "My people would not hearken to my voice, and Israel would none of me." Even in the days of Enoch, the seventh from Adam, we read of the ungodly and their words and deeds (Jude 15). It is also written that at the end of this age, to which we are fast hastening, there shall be only a form of godliness without the power and sound doctrine will not be endured (1 Tim. iii, 1-5; iv, 3).

The great adversary, the father of lies, who to Eve questioned the word of God and made God a liar, will yet gather the nations to make war with God's people, Israel, and the Lamb of God Himself, but beast and false prophet shall go alive to the lake of fire and the devil to the bottomless pit (Rev. xvii, 14; xix, 19, 20; xx, 1-3; Zech. xiv, 1, 2).

Like the multitudes who clung to Him when here in humiliation and upon whom He always had compassion, there are multitudes now who would listen to the gospel if they could hear it, but many of the religious leaders of today are as much against the gospel of God concerning His Son, Jesus Christ, as were the scribes and Pharisees against Jesus Christ. Those who today believe that Jesus is God, the Creator of all things, who died for us, bearing our sins in His own body on the cross, rose from the dead, ascended to Heaven and is coming again to set up His kingdom of righteousness and peace on this earth, are accounted unlearned, ignorant, behind the times, narrow and all else that unbelieving words can describe. How utterly foolish seemed their accusation in the light of His question, "How can Satan cast out Satan? (Verse 23). How great and far-reaching His saying in verse 27, "No man can enter into a strong man's house and spoil his goods except he first bind the strong man." The devil is the god of this world, blinding the minds of all unbelievers. The whole world lieth in the wicked one. And it was not wholly an untruth when he said to our Lord as he showed Him all the kingdoms of this world and the glory of them, "All that is delivered unto me, and whomsoever I will, I give it." (11 Cor. iv, 4; 1 John v, 19; Matt. iv, 8; Luke iv, 6). Those who talk of winning the world for Christ do not seem to believe these truths nor consider the necessity of getting rid of the devil, but it stands as our Lord said—the strong man must be bound before his goods can be taken.

The unpardonable sin of verses 29, 30, makes us think of 1 John v, 16: "There is a sin unto death. I do not say that he shall pray for it." Let us not forget verse 28 of our lesson. "All sins shall be forgiven unto the sons of men and blasphemies wherewithsoever they shall blaspheme," and also 1 John i, 7, "The blood of Jesus Christ cleanseth from all sin." What, then, can this sin be that hath never forgiveness, but the persistent refusal to listen to the voice of the Spirit, whose delight is to point to Jesus Christ, who alone can forgive sins? As there is "none other name" (Acts iv, 12), if that name is refused or dishonored there can be no forgiveness, but only eternal damnation (verse 30).

As he was told that His mother and His brethren were without, desiring to speak to Him, He stretched forth His hand toward his disciples and said, "Behold my mother and my brethren, for whoever shall do the will of my Father, which is in heaven, the same is my brother and sister and mother" (verses 31-35; Matt. xii, 46-50). On another occasion He said, "My mother and my brethren are those which hear the word of God and do it" (Luke viii, 21). When a certain one spoke of the blessedness of being His mother He said, "Yea, rather blessed are they that hear the word of God and keep it" (Luke xv, 10). We cannot but think of His words on the last night concerning such as keep His words becoming a mansion in which both He and His Father would dwell. At the same time He told His Father that certain ones had received the words which the Father had given Him for them (John xiv, 23; xvii, 8). I am greatly impressed by the fact that receiving His words made Him so glad that He told His Father of it. How it must grieve Him to have His words treated as many of his professed friends treat them today, seemingly forgetting that all His words were not His, but His Father's (John xii, 49; xiv, 10). "We can do nothing against the truth, but for the truth." (11 Cor. xiii, 8).

Prize Winning B. C. Fruit Lands

OWN a five acre fruit and poultry tract (or more) in British Columbia and be independent for life. \$20 down and \$10 a month pays for it. No interest and payments extended in case of sickness. From \$500 to \$1,500 per acre realized by ranchers in this famous prize-winning district, the Main Kootenay Lake. Ideal climatic conditions, no rainy seasons as on the coast; no dry season or irrigation needed as in the Okanagan and Cranbrook districts. See Government reports. The main lake never freezes over and boats run the year around—see reports of other districts. I spent years in finding this ideal spot; I live there myself. I call my own fruit ranch 69 acres—"The Honeymoon Place." Send for my booklet entitled "Homeseeking." It tells you all you want to know about that great British Columbia country, and there are scores of questions answered.

The new booklet, "Harris' New method of Apple Culture," tells you how apples can be made to come into commercial bearing the second year. The old way you had to wait five years. Where a farmer made 1,500 dollars he can now make 3,000 dollars per acre. It is free if you will send me the names of ten of your friends or relatives who may be interested in buying fruit lands. I have sold to over 400 people the last four months and would be pleased to send you copies of some of the nice letters that they have written to me, which I received from those who have visited their holdings which I picked out for them.

I refund you your money if after seeing the tract I select for you you are not satisfied with it or with the rest I have to offer. If you cannot go on to your tract and wish to retain your present position for a few years and spend your vacation out there, I will agree to plant it and take care of it for you for 5 years at a small additional cost and give you a share of the profits from crops. I allow you a discount of ten per cent for cash and give you a good commission in case you can secure buyers for me.

My monthly price list for wild and improved tracts will interest the most careful buyer. My next excursion will be leaving Winnipeg June 27th, and I will be pleased to have you join me. Send for my famous "Kootenay Magazine," issued monthly, illustrated and full of good things about that wonderful country. \$2.50 per year, or 25c for sample copy. A year's subscription for 20 names and addresses (written plainly) of people interested in B. C. fruit lands.

Write me at once, giving name of a reliable reference, your nationality, amount you wish to invest, and I will forward booklet, map, etc. Address me personally at head office:

Excursion to Lacombe Ex- perimental Farm

The department of Agriculture in conjunction with the Dominion Experimental Farm, Lacombe, will run an excursion train from Calgary to Lacombe on July 29th.

This will give the farmers and their families an opportunity to visit the Experimental Farm at Lacombe, and also see what the experimental farms of Alberta are doing to assist the agriculturist in growing better and bigger crops, as well, to see and judge for themselves what is going on at Lacombe Experimental farm in the way of experiments. The information sent out from these institutions in the form of circulars is enormous and is read with a great deal of interest by the farmers of the Alberta Province.

Meals will be served on the grounds at reasonable rates and those bringing lunch baskets will have an opportunity to buy tea and coffee on the grounds. Mr. Mr. Hutton, Manager of the Farm, will be prepared to conduct the visitors over the farm.

Schedule and Fares for Special Train from Calgary to Lacombe Experimental Farm and return. July 29th, 1912, under the Auspices of Provincial Government.

Going Stations	Return round trip fare: Journey	adult	child

Crop Prospects Are Good

Crop prospects in this district were never better than what they are at the present stage, not only for a bumper crop but also for a very early harvest. While the crops of this year were not in the need of the incessant rain which we had during the past week, yet it being followed by a warm sun shine will no doubt have many advantages.

F. L. Harris has fruit lands for sale. See his ad.

Trip to Miami, Florida

Mr. H. Powell, a very prominent farmer of this district, and one who has done much for the settling of settlers in Bowden district, returned on Friday July 5th from an extended visit to Miami, Florida and has been kind enough to hand us the following story of his trip, and which we take great pleasure in publishing.

I left Bowden on June 1st for Miami, Florida, leaving Calgary for Moosejaw, from there I went by rail to St. Paul and thence to Chicago, and through the state of Wisconsin, then across through the state of Indiana and capital of that state, Indianapolis, and from there through Cincinnati, Ohio, from there to the state of Kentucky Tennessee and down to Atlanta, Georgia, thence to Jacksonville, Florida and from there to my headquarters, Miami, Florida, where I stayed for some considerable time, and where I must say, I was pleased with both the climate and the country.

On my return trip I came back over practically the same route to Chicago, and from there to Cedar Rapids Iowa where I stopped over for about ten days visiting my sister and brother whom I had not

seen for over twenty five years, and from there to St. Paul and Moosejaw and Calgary thence on my way to Bowden.

I must say I enjoyed myself very much throughout the entire trip and express high opinion on the Florida country as well as the various states which I passed through on my Journey.

Edmonton Exhibition

Great preparations have been made for this year's Exhibition, to be held in Edmonton August 12th to 17th. The Directors have erected a new Manufacturers' Building and a new Machinery Hall, and are adding extra space to the grounds for the accommodation of exhibitors of farm machinery. \$20,000 has been added to the Prize List, making a total of \$45,000 in prizes and purses to be competed for. New classes have been made for Fine Arts, Photography, Women's Work, and School Children's Work. The facilities for loading and unloading stock have been greatly improved by extending the spur line along the eastern side of the grounds, and providing new unloading platforms for horses, sheep and swine. The entries will all be catalogued this year, and for this purpose it is necessary that all entries should be received not later than the 29th of July.

Sheep Diseases Caused by Dogs

Gid or Sturdy

By W. T. Ritch

This is caused by hydatids on the brain, these being the cystic form of the tapeworm of the dog and look like watery bladders, varying in size between a bean and a hen's egg. Yearlings are more liable to it than older sheep and although invariably fatal it is fortunately not infectious. The best authorities have now come to the conclusion that Gid cannot exist without the presence of dogs to harbor the fully developed creature which is expelled in the faeces on herbage, and then swallowed by the sheep. All dogs are liable to tapeworm, even those carefully fed and well kept, while those carelessly fed are always more or less affected. During the summer months, dogs are able to rid themselves of tapeworms before their own health is seriously affected, and at this season the risk of sheep swallowing these numerous discharged tapeworms is greatest.

The early symptoms of Gid can only be detected by a keen and experienced shepherd, but the disease soon becomes apparent to the casual observer. The affected animal moves round and round in a circle, is very dull, separates

from its fellows and generally holds its head high in the air. It is a most distressing ailment to watch, not to mention the excruciating pain endured by the sheep.

There is no cure for fully developed Gid except trephining and the operation and treatment cost fully the price of the average sheep. If the animal is slaughtered as soon as the symptoms are observed the carcass may be safely used for food, but the head should always be burned and not buried. When the disease is far advanced the carcass is unfit for food.

It will therefore be seen that in addition to worrying sheep, all dogs are a constant source of danger in any farming district, particularly those in which sheep are kept.

NOTE:—It requires an expert to distinguish between the symptoms of Gid and indigestion. The latter is vastly more common during the winter months than is the former. When sheep that have been several weeks on dry feed, begin "to act queer", it is a good plan to supply them with some kind of succulent feed. If that is not obtainable then bran containing a small quantity of Epsom salts should be supplied. The flock will be benefited by the change of feed even though the trouble prove to be Gid, and should it be indigestion they will generally be cured.

It Often Happens

How did you happen to lose your girl?

I entertained her so lavishly while we were engaged that she acquired expensive tastes. Then she wisely declared that she would be unhappy with anybody but a millionaire, which I wasn't.—*Courier-Journal.*

PSORIASIS WAS CURED

After Five Years of Suffering—Three Doctors Failed and Said Case Was Incurable

Itching and Burning Was Terrible Until Relief and Cure Was Effected by

DR. CHASE'S OINTMENT

Psoriasis is another name for chronic eczema. It is the worst form of this dreadful itching skin disease. Once eczema has reached this stage it is usually considered incurable.

But here is a case which proves again the wonderful healing power of Dr. Chase's Ointment. Not only does relief come quickly, but the resulting benefits are thorough and lasting.

Mrs. Nettie Massey, Concession, Ont., writes:—"I thought it my duty to write you telling you the great benefit I received from using Dr. Chase's Ointment. For five years I suffered with what three doctors told if any one offered to guarantee me a cure for \$500.00, to keep my money in my pocket, as I could not be cured.

"The disease spread all over me, even on my face and head. The itching and burning was hard to bear. At last my brother read in the paper about Dr. Chase's Ointment as a healer. I used 8 boxes, and I am glad to say I am entirely cured, not a sign of a sore to be seen. I can hardly praise the ointment enough, and you are at liberty to use my testimony, as I hope thereby to induce other sufferers to try the same."

Dr. Chase's Ointment 60c. a box at all dealers or Edmanison, Bates & Co., Limited, Toronto.

Discovered

You look down in the mouth. Don't allow yourself to get too much cut up about your girl throwing you over.

I'm not worrying over that. But she sent me back my engagement ring marked "Glass! Handle with Care!"

Modern Version

Teacher—The poem we have just read speaks of the "butressed walls." Mamesie, can you tell me what a buttress is?

Mamesie—Yes'm, it's a girl or lady what butts in.

Few and Far Between

Pa, why do they call this strawberry shortcake?

Because the supply of strawberries used in it is so short.—*Detroit Free Press.*

THE BLESSING OF MOTHERHOOD

Healthy Mothers and Children Make Happy Homes

Motherhood is woman's highest sphere in life. It is the fruition of her dearest hopes and greatest desires; yet thousands of noble women through some derangement have been denied this blessing.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong. This is evidenced by the following letters which are genuine and truthful:

London, Ont.—"I wish to thank you for the benefit I received by taking your famous medicine, Lydia E. Pinkham's Vegetable Compound. Before my baby was born I was so ill I could not stand long or walk any distance. I had to lie down nearly all the time. After I took your medicine I felt like a new woman. I could work from morning till night and was happy and well. I certainly think it relieves pain at childbirth and recommend it to every woman who is pregnant. You may use this testimonial if you like. It may help some other woman."—Mrs. FRANK CORBIN, 132 Adelaide St., London, Ont.

Brooklyn, N.Y.—"I was ailing all the time and did not know what the matter was. I wanted a baby but my health would not permit it. I was nervous, my side ached and I was all run down. I heard that Lydia E. Pinkham's Vegetable Compound was good and took the medicine. I have now a beautiful baby and your Compound has helped me in every way."—Mrs. J. J. STEWART, 299 Humboldt St., Brooklyn, N.Y.

AGRICULTURAL IMPLEMENTS

50,000 Unclaimed War Medals

In two large strong rooms at Woolwich Dockyard, Woolwich, Eng., are stored nearly 50,000 unclaimed South African medals. Each is engraved with the name of the man to whom it was awarded. These men are not now with the colors, but a staff of clerks and a department armed with medal lists and regimental records are endeavoring to trace them.

Many of this lost legion are irregulars who flocked to the British colors when war broke out, but who have since become scattered all over the world. One young man, for instance after the war, went prospecting in the interior. He turned up recently in Capetown after an absence of nearly ten years and asked for his medal. It was given him. Similar demands from all parts of the British Empire are received nearly every week.

Hundreds of medals have been reposing in regimental safes since 1904. At the end of ten years, according to the King's regulations, those still unclaimed will be broken up and the silver debited to the mint. Many men have refused the medal on the ground that it is 'too cheap.' Three-quarters of a million of the medals were struck—a fact which may have been lightly regarded.

But these South African awards are not the only medals at Woolwich awaiting claimants. There are 4,000 medals (with names engraved) for the Zulu campaign of 1878-79, and also seven medals presented by the British South African Company for the Matabele campaign. Claims for the Crimean and Indian Mutiny medals are still made. On an average the India office give away twelve Mutiny medals a year, while the war office bestows one Crimean medal a year and replaces about ten lost medals.

Minard's Liniment Co., Limited.

Dear Sirs,—This fall I got thrown on a fence and hurt my chest very bad, so I could not work and it hurt me to breathe. I tried all kinds of Liniments and they did me no good.

One bottle of MINARD'S LINIMENT, warmed on flannels and applied on my breast, cured me completely.

C. H. COSSABOOM.

Rossway, Digby, Co., N.S.

Contents of a Man

An average man of 150 pounds contains the constituents found in 1,200 eggs. There is enough gas in him to fill a gasometer of 3,649 cubic feet. The iron in him would make four tenpenny nails. His fat would make 75 candles and a good-sized cake of soap. His phosphate contents would make 8,064 boxes of matches. There is enough hydrogen in him in combination to fill a balloon and carry him above the clouds. The remaining constituents would yield six teaspoonsful of salt, a bowl of sugar, and ten gallons of water. The foregoing analysis is made by the Practical Druggist, which adds that a man has 500 muscles, about 1,000,000 cells, 200 bones, 4 gallons arteries and veins, more than 25 feet of intestines, and millions of pores. His heart weighs from 8 to 12 ounces; its capacity is from 4 to 6 ounces in each ventricle, and its size is 5 by 3 1/2 by 2 1/2 inches; it pumps 22 1/2 pounds of blood every minute, 16 tons in every 24 hours, about 5,840 tons a year; in a fully developed, 'healthy adult' it beats about 72 times a minute.

The change of dietary that comes with spring and summer has the effect in weak stomachs of setting up inflammation, resulting in dysentery and cholera morbus. The abnormal condition will continue if not attended to and will cause an exhaustive drain on the system. The best available medicine is Dr. J. D. Kellogg's Dysentery Cordial. It clears the stomach and bowels of irritants, counteracts the inflammation and restores the organs to healthy action.

Manager Wives

A well known doctor, who claims that Canadian motherhood is the highest type in the world, was asked if this was not partly due to the unusual amount of responsibility the Canadian husband allows his wife in family affairs.

Quite true, the doctor replied. The confidence her husband places in her makes the Canadian mother capable and self-reliant. The mother's share in a family's success or failure is a large one—much larger, indeed, than most men will acknowledge.

I see by the papers, a friend once said to me, that Footlights is traveling under his wife's management. So do most men, I replied, but they don't advertise it.

Naturally

Was Jimmy Jinks angry at the result of his interview with Jenny Blink's father?

Well, he did say he felt quite put out.

PROGRESS OF CREMATION

Over Four Hundred Cremations at Montreal

The British Medical journal in a recent article on the progress of cremation gives figures showing the growth of this method of disposing of the dead in Europe.

The total number of cremations in Great Britain during 1911 was 1,023, which shows an increase of 177 as compared with 1910. Since the opening of the Working Crematorium in 1885, there have been 9,984 cremations in Great Britain. At the present time there are 13 crematoriums in Germany, six of which started operations last year. A law has been recently passed permitting cremations in Prussia.

In Switzerland there are now ten crematoriums, three of which belong to the municipalities of Basel, Geneva and Zurich. There were 1,210 cremations in Switzerland in 1910.

There are about forty crematoriums in the United States, twenty-eight in Italy, five in France, four in Sweden and Norway, two in Russia, one in Denmark, and one in Montreal, Canada.

The beautiful crematorium in Mount Royal cemetery at Montreal was opened in 1902 and up to the close of 1911, 401 cremations took place there.

No matter how deep-rooted the corn or wart may be, it must yield to Holway's Corn Cure if used as directed.

Pretty Smart Work

Residents in rival cities, Jones and Brown were bragging hard about the excellences of their respective homes.

Take our fire brigade, said Jones, after an hour's heated discussion. Do you know, the other day a fire broke out in our town, and within three minutes the engine came along, but it was going so fast that the driver couldn't pull up till he was a mile past the burning house?

Brown smiled in a superior fashion.

My dear fellow, that's nothing, he said. One day two men were working on a church steeple in my city, and suddenly one of them slipped. A terrible death would have been his, only fortunately, a spectator had the presence of mind to call the fire brigade on the telephone, and they came just in time to catch him in a blanket.

Extermination of Rats and Mice

If it were generally known that there is no trouble to rid a house, barn or any building of rats and mice by the use of Gillett's Lye, it is doubtful if the article could be made as fast as it would be used for this purpose alone. The process connected with using it is very simple, the plan being to sprinkle a little of the article in and around the holes made by these pests in floors, partitions, etc. In addition to this it is well to use a thin piece of board about a foot square, or even smaller, and make a complete circle of the Lye on the board about a quarter of an inch deep, and inside of the circle place some meat or cheese. In endeavoring to get at the bait the feet of the rats and mice will be burned and the whole colony, whether large or small will immediately disappear from the premises.

The plan is worth trying, but the good kind—Gillett's Lye—should be procured. Refuse the many cheap imitations and substitutes.

The Wedding Gift

The bachelor community of a certain suburb were greatly scared by the advent amongst them of a fearsome type of the desperate, husband hunting spinster. After throwing each of the bachelors into a state of terror, lest he should be the recipient of her attentions, the lady finally captured the curate.

Local bachelordom was so intensely relieved at its escape that it united in presenting the curate with a splendid wedding present in the shape of a costly table-service. The curate was overwhelmed. "Such a magnificent gift!" he gasped.

Well, you see, my boy! exclaimed the chief of the local bachelors, it is really our thanksgiving service.

Minard's Liniment Cures Garget in Cows.

Silly

Johnny—OO-oo! Earlie Dobbs punched my nose when I wasn't looking.

His Pa—What? Where were your eyes?

Johnny—He told me to close them a minute.

Of Course

Teacher—The burglar leaped through the window as the detective entered the room. How would you punctuate that sentence?

Bright Scholar—Make a dash after the burglar.

A Difference

Is your brother running for office? He was, but the newspapers have him on the run now.

Labor Saving Device

Inquisite—Say, stranger what kind of ammunition do you use in shooting frogs?

Andy—Pepper and salt—seasoned when you shoot them.

Father bought a Rubens when we were in Europe last summer. Really! What horsepower?

Plain Speaking

Why, it's as plain as the nose on your face.

Well, anyhow, it ain't as plain as the face behind your nose.—*Tatler.*

The Difference

Bess—What's the difference between a bird with only one wing and one with two?

Tess—I give it up.

Bess—Merely the difference of a pinion.

Marvelous

Bobby—This sailor must have been an acrobat.

Mamma—Why?

Bobby—Because the book says, "Having lit his pipe, he sat down on his chest."

HOW BLOOD IS MADE.

The liquids and the digested foods in the alimentary canal pass through the wall of the canal into the blood. This process is called *absorption* and takes place chiefly from the small intestine. After absorption the blood carries the food through the body, and each cell takes from the blood the food it needs. A pure glyceric extract made from bloodroot, mandrake, stone, queen's root and golden seal and sold by druggists for the past forty years under the name of Dr. Pierce's Golden Medical Discovery, gives uniformly excellent results as a tonic to help in the assimilation of the food and in the absorption by the blood of the food it requires. Eradicate the poisons from the blood with this alternative extract which does not shrink the white blood corpuscles, because containing no alcohol or other injurious ingredients. Thus the body can be built up—strong to resist disease. This is a tonic taken from Nature's garden that builds up those weakened by disease.

Dr. Pierce, founder of the Invalids' Hotel at Buffalo, N.Y., has received many letters similar to the following:

MR. FRED R. MUNRO, of Paradise, N.S., writes: "I take great pleasure in writing you as regards my case and its cure. In September I was taken with Typhoid Fever, which put me in a dreadful condition. I was weak, ran down, nervous and was reduced to a mere skeleton. I had tried most everything I could get but nothing did me any good until, at last, I was advised to try Dr. Pierce's Golden Medical Discovery, and 'Pleasant Pellets,' which I did. Before I had used one bottle I saw a great improvement and when I had used this treatment two months, using only a few vials of 'Pleasant Pellets,' I returned to perfect health. I cannot find words to express my thankfulness for this wonderful medicine. I advise all sufferers to write to Dr. R. V. Pierce, as he cures when others fail."

F. R. MUNRO, Esq.

MONEY TO LOAN ON FARM PROPERTY AT CURRENT RATES OF INTEREST

Get My New portable GRANARY

"SEE how handy my new granary is. You place four or five of them around your quarter section. This saves time in harvest hauling to stacks."

"Then my granaries come in to hold your grain from each stack. My granary keeps grain clean, dry and unheated. No musty grain, no losses from rats or vermin. When ready haul direct to the elevator from the granaries."

"I make several sizes of this handy granary. You can get 150, 200, 300, 400, 500, 600 and 1000, full measure guaranteed Imperial Bushel sizes (not small U.S. bushels) and you set up any Pedlar Granary in half a day. Remember you can move it easily any time. My Granary saves big money by cutting down teaming and keeping the grain right."

"See how the man at the left can shovel grain in from the threshing machine, if it has no leg-spout to deliver grain direct through the manhole on the roof."

The other man is bagging grain. Granaries are had with door-section or plain, as desired. My new Granary is just right for saving cost. It pays for itself in a year. It comes in sections—low freight cost. A boy can set up. Write for my descriptive booklet." 700

Special Notice

Don't Say You Did Not See It

Upon looking over our Subscription books we find there are a large number of subscribers in arrears, some for two years, some for one year, and some for six months. Our subscription price to this paper is only one dollar per year IN ADVANCE; but if we do not hear from the subscribers who are in arrears with their subscriptions within a short time we are going to take your name off the list. If you still intend taking our paper look up your receipts in a hurry, either send money order, or call and settle. We are doing this for the following reasons:-

Ink costs money, paper costs money, and time means money to us. HURRY, and don't forget your receipts, if you have not got them, and are positively sure as to when your subscription expired kindly let us know as well as sending your money. This is the first and probably the last notice you will receive from us in regards to your subscription. REMEMBER if we were to run a paper for very long on wine alone, we would soon go bust.

C.I.D. 17-w-4

A meeting of the Council of Local Improvement District 17-W-4 was held on the 21st of June at Spruce Coulee Farm.

All Councillors were present. The minutes of previous meeting read and adopted.

The Councillor for Division 1 was authorized to move fence and do that work on road surveyed last year by the Department.

On motion by Boettger and Bookless, Fred Farrar were allowed \$7.00 for labor done on road.

Motioned by Turnbull and Smith the Councillor for Division 3 was authorized to spend \$60.00 work on slough south of Sec. 28-34-28 w4, Carrier.

The following bills and pay sheets were passed and ordered paid.

Division 1. T. E. Elliott, blacksmith, \$5.35; McKercher, lumber, \$0.55; F. Boettger, for building bridge, 32.00.

Division 3 and 4. Crown Lumber Co. \$18.80; B. O. Sannes, sal. account, 50.00.

Pay Sheets. S. Goetz, \$35.00; S. Cummins, 78.00; S. Cummins, 76.50; N. Gerber, 64.00

The council adjourned to meet on the 27th of July.

Mr. Ryrie and Mother arrived in Bowden on Wednesday from points in the States. He is visiting with his brother A. Ryrie.

Don't forget our suits, C. H. Payne.

H. E. SHENFIELD,

Secretary.

Old Timer Dead

The death of Mr. E. A. Shenfield occurred very suddenly on Sunday evening last, July 7th, at Bowden.

Deceased was well known and widely respected in the Bowden district. Mr. Shenfield was born in the County of Norfolk, England, in the year 1842. He spent the greater part of his life in the town of Lowestoft, County of Suffolk and removed to this part of Canada in the year 1895, where he has resided since that time. He was adopted a member of the Bowden Camp of the Modern Woodmen of America a little over a year ago. Funeral service was conducted at the English church on Tuesday afternoon to which he was a life long member. Service at the graveside was conducted by the Rev. Lenting as well as by the officers of the Modern Woodmen in order that they might pay their last respect to their departed neighbor.

He leaves a widow, five sons and two daughters to mourn his loss.

CARD OF THANKS

Mrs. Shenfield wishes to thank the many friends for their kindly assistance during her recent bereavement.

STILL THEY COME

PRICES BRING THEM

**How can I give those Prices?
By being under less expense**
